To Whom It May Concern

05.06.19

I have known Md.Mohsin (2010-2011) in my capacity as an assistant professor of information Technology (BIT) at Jahangirnagar University. He has requested me to write him a letter of recommendation. Every year, I am approached by several dozens of students who request a recommendation letter. However, I end up recommending only a few of them. I believe that a letter of recommendation is very serious business. I write one, only when I am convinced that the candidate is right for the program that he is applying for.

It gives me immense pleasure in recommending him for your higher education community. I have known him for more than 5 years in my capacity as a faculty member of IIT Department of J.U. During his 3rd & 4th year I was his Professor for Human Computer Interaction, Artificial Intelligence & Neural Network, and Microprocessor Interfacing.

I have come across many students with a sharp understanding and knowledge of IT, It is the rare student who is able to develop a multi-dimensional perspective of the course of IT, and he is one such rare student. He had developed a conceptual understanding of a fact-based subject like IT.

He carried out thesis in the Department under the supervision of me.

He has shown the motivation, intelligence, preserving nature and analytical aptitude for graduate study. His attendance and presence of mind has been a key part of his study program that has helped him to contribute positively while working as a part of the team.

In my view, Md.Mohsin compares favorably with the best among my student. While all reasonable efforts have been made to ensure the truth and accuracy of the statements made in this reference, neither the person giving reference nor the university will held the responsibility in any way for any errors, omissions and misstatements contained in this reference. And I assure you that he is not mostly suited for this true CV that I recommended to you & are available for further call.
